## What do saguaros need?

Cut out the pictures. If you think a saguaro needs what's in the picture to survive, glue it down on the paper! **Students are not expected to correctly select pictures for the probe. The probe is intended for you as an educator to see what your students already know about the saguaro.**

barrel cactus

# My Spectacular Saguaro

Draw a picture of the saguaro model you made. Can you add labels to your picture? Then, choose one part of a saguaro and write a sentence telling how it functions to help the saguaro survive!

Word Bank:

roots  
grooves  
spines  
waxy skin

Example response: The spines on a saguaro give it shade

from the sun.

## Thriving and Surviving!

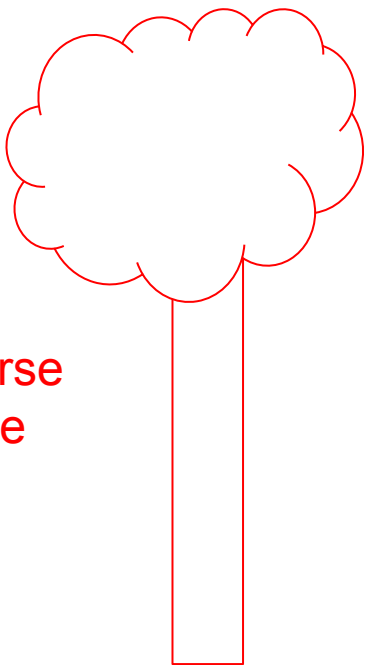

Help! This saguaro is all alone. Can you draw the perfect surroundings for this saguaro? Make sure to add the parts of the saguaro that you've learned about this week, too!

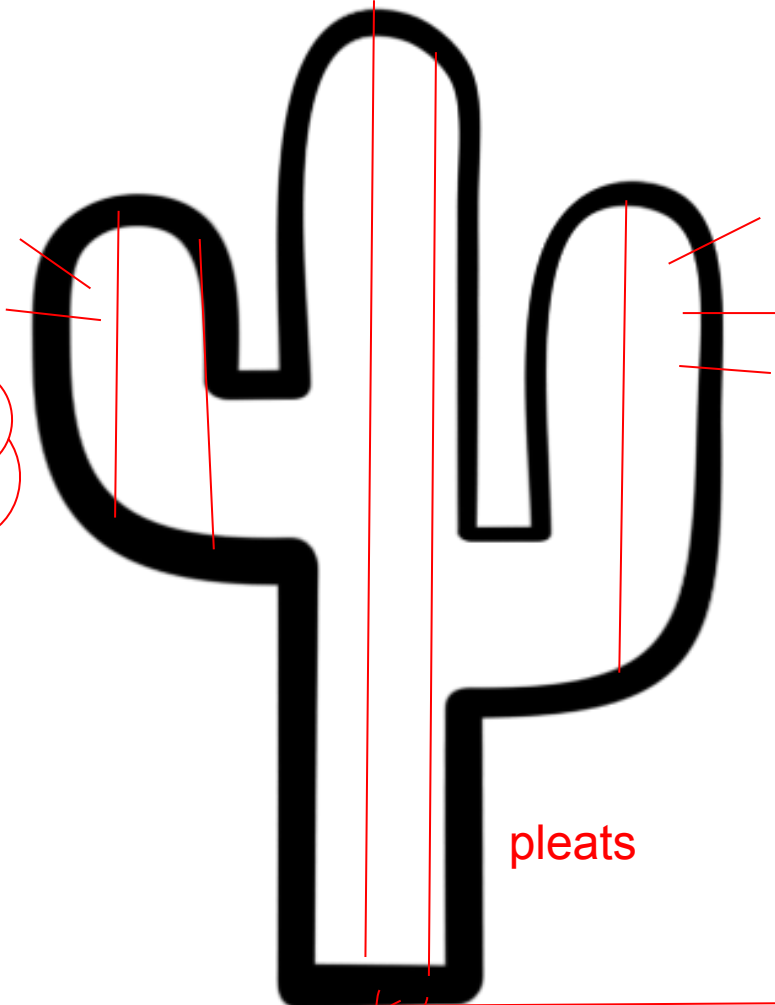

rain

sun

nurse tree

spines

pleats

roots
