

Water Conservation Bingo

Directions: Complete five squares in a row, horizontally, diagonally, or vertically.

Turn off faucet while brushing your teeth	Help wash dishes by hand, but don't let the water run.	Use a broom instead of a water hose to clean your sidewalk.	Give leftover drinking water to your plant or pet.	Use a reusable water bottle.
When taking a bath, fill the bathtub up only half way.	Find a native tree or plant that doesn't use much water.	Use leftover ice cubes to water plants	Run the washing machine when you have a full load only.	Keep your shower under 5 minutes.
Run the dishwasher when there is only a full load.	Use a bucket and shut off nozzle when washing your car.	 <p>Free Space</p>	Draw a picture of your favorite water activity.	Look for water leaks, and tell your parents if you find one.
Fill a sink to rinse dishes rather than letting the water run.	Turn off the faucet when washing your hands.	Water your lawn in the morning or at night.	Put your unfinished drinking water in the fridge or use it to water your plants.	Scrape dishes rather than rinsing before the dishwasher.
Wear clothes one more day, rather than washing them.	Steam vegetables rather than boiling them.	Use a nozzle on your hose to water your plants.	Use a garbage bin rather than flushing things down the toilet.	Use leftover mop water to wash your bike, scooter or skateboard.
